

THIS IS WHO WE ARE

CS rugs is a dedicated and innovative manufacturer of 'custom made' rugs. Since 1979 CS rugs has specialized in the manufacture of rich rugs in which structure and colour are the essence. Each rug is of a unique structure, material, pile height, size and colour and is made entirely to satisfy any request.

The collection enriches residential-, office-, shop- and hotel projects. The creative CS rugs Colour Studio is able to vividly imagine and convert your specific wishes into a perfectly matching rug!

CS rugs.

A CLOSER LOOK AT THE CSRUGS COLLECTION

The wide range of products in our collection is characterized by richness and timelessness with a dash of trendy; yet always part of a highly aesthetic bigger picture. Depending on the chosen colour, structure and pile length, the collection fits both modern and classic interiors. A clear hallmark of CS rugs is the use of fine [worsted-] yarn; by making use of many different colours, we create an impressive and subtle atmosphere.

CS rugs mostly uses yarn of organic origin, such as various types of wool from New Zealand, linen, cotton, viscose and pure silk. Yarns with beautiful and pleasant characteristics, which, on itself or subtly added for a dazzling effect show a luxurious result.

Nature based materials perfectly fit CS rugs' drive to strive for sustainable products and production methods and their relentless effort to achieve this.

Be faithful to your own taste,
because nothing you really
like is ever out of style

~ Billy Baldwin ~

Studio Makkink & Bey sees rugs as more than just interior objects, but as landscapes in physical and virtual way. Imagine that every morning when you walk into the living room, the rug creates a space where you can comfortably enjoy the morning sunlight with a cup of coffee. What's more, by simply scanning the code on the rug, it leads to a cultural online platform offering you a range of stories and information in art, design and architecture.

Frequently, we work together with well known Dutch designers like: Richard Hutten (Art Director CS rugs), Christien Meindertsma, Joep van Lieshout, Irma Boom, Jacob van Rijs [MVRDV], Sabine Marcelis, Jolán van der Wiel, Jurgen Bey

[with these top class designers we realised project Freedom in Milan '19] but we also had a nice collaboration with Karim Rashid from New York, Christiane Müller and Roderick Vos.

CREATIVITY TAKES COURAGE

SALINAS DE MARAS

By Christine Müller
Design 'Square'

Three exclusive designs are created by textile designer Christine Müller. Forms, colours, pile heights and structures combine like a landscape. Inspiration and eponym at the same time are the 'Salinas de Maras'. These terraced salt basins in the Peruvian Andes have been created by the Inca's for over 700 years ago.
