- Nero marquina marble (R002)
- Black steel

About

The Groove side tables in marble and oak are designed by Brussels-based designer Alain Gilles. Thanks to the graphic 'grooves' in the marble or wooden top, the tables have been given a specific alignment and direction, which allows to create a dialogue between the lines, heights and materials of the tables.

Materials & care

- Table top: solid oak or marble.
- Base: black folded steel
- Felt glides.
- Use lukewarm water, a soft cloth and mild soap, soda, or a special marble cleaner for a quick facelift.
