collection

**Our desire to strive for the ideal world, is a never ending story. We continue to search for more, for better, to bring you the best... because you deserve it!**

With the Silky collection, in addition to the goals already achieved, we have focused on softness. Our search has brought us to the "chenille" yarn. This type of yarn owes its name to its shape. It takes the shape of caterpillars such as the Pine processionary. Chenille is the French name for caterpillar.

Many months it took us to develop the perfect indoor/outdoor chenille with success.

To highlight this noble yarn even more, we have also chosen to finish the seats with a sophisticated edging.

Come with us and enjoy this journey through our catalog that takes us from our home over the mountains to sunny beaches. My home is where my Roolf-Living is.
